

AWARD TURF FERTILIZER

COMBINATION INSECT AND PRE-EMERGENT WEED CONTROL

Award Turf Fertilizer containing Acelepryn® and Dimension® combines two premier active ingredients in one great product. Dimension's extended application window provides season-long control of crabgrass and suppresses other listed annual grasses and broadleaf weeds. Acelepryn, recognized by the EPA as a reduced risk pesticide, controls both surface and sub-surface feeding insects for season-long grub control. For maximum effectiveness, apply at the higher listed rates for preventative and curative control.

KEY BENEFITS

- Season-long crabgrass and grub control
- Low environmental impact
- Proven Chemistries
- Decreased risk to non-target organisms
- Available with Enhanced Efficiency Fertilizer
- Improved efficacy*
*compared to competitor's products
